

Distinguished Lecture Series Institut für Erd- und Umwelt- wissenschaften

Distinguished Lecture Series Spring 2010:

Introduction to workgroups in the Institut für Erd- und Umweltwissenschaften

Mondays, 4:15 p.m. – [Campus Golm, Haus 27, Hörsaal 0.01](#)

For further information please contact [Ed Sobel](#)

Date	Invited Lecturer	Title of Presentation
April 19		No lecture - 1st day of classes
April 26	Patrick O'Brien, Petrologie	Explaining the mountain from a grain of sand
May 3		Ordentliche Vollversammlung für die Fachschaft Geowissenschaften
May 10	Roland Oberhänsli, Mineralogie	The role of petrology in geodynamic reconstructions
May 17	Jens Tronicke, Angewandte Geophysik	Applied Geophysics at UP: Imaging and characterizing near-surface environments
May 24		Pfingstmontag
May 31	Manfred Strecker, Allgemeine Geologie	Tectonics, topography and climate
June 7		No seminar
June 14	Helmut Elsenbeer & Alex Zimmermann, Landscape Ecology & Soil Science	Surficial processes: mechanisms, controls and spatial patterns
June 21	Boris Schröder, Environmental Modelling (with ZALF)	Environmental Modelling - understanding the linkage between abiotic and biotic processes in dynamic landscapes
June 28	Frank Krüger, Geophysik	A seismological array is always handy
July 5	Axel Bronstert, Hydrology & Climatology	Hydrology in a changing world
July 12	Maria Mutti, Exogene Dynamik / Sedimentologie	Earth History and Georesources
July 19	Sascha Oswald, Water and Matter Transport in Landscapes	Geohydrology or Hydrogeology?
